

Clean Soil Certification Form

I, _____ (Individual Name/Corporation), certify that the soil/material being brought into Bayshore Recycling Corp from our project _____ (Name of Project/Address/Residence), located in _____ (City/Town), in the State of _____ and in the County of _____, is not from a known contaminated site, spill, release, septic/septic field, the result of a fuel oil tank excavation, and/or does not have NJDEP, EPA or other Regulatory Agency oversight. Additionally, the material is free of debris, including naturally occurring asbestos minerals. The material is generated from _____ (Type of Project/Activity) and is supervised by _____ (Insert Supervisor/Contract Name/Inspector). This certification represents _____ (CY/ tons).

If there is any problem with the material, our firm will ensure that the soil/material be tested and disposed of accordingly at our sole expense.
